

Printing on Fabric - Screen Printing

Tutor:- Susan Mathews

Class Outline

This time around the Printing on Fabric workshop will focus on silk screen printing. This can be a fun and spontaneous process or one that is planned carefully to achieve the desired effect. We will have fun playing with both of these approaches.

We will take an experimental approach on day 1 using things such as dry and oil pastels and cut or torn paper stencils and layering colour and technique to achieve lovely abstract designs.

On day 2 we will take a more formal approach to stencil making and work on a three or four stencil design.

Screens and squeegees will be provided for use in the workshop as well as fabric printing inks and a materials fee (for fabric printing inks) of \$20 will apply.
